## SPORTS

### HOCKEY

Hinks have been chosen from the  
members of the curling club to play a  
series of games during the remainder  
of the winter. The first game was  
played Monday evening when Gay-  
fer's rink defeated Walker's rink by a  
score of 18 to 8. The following are  
the members of the rinks:

On Wednesday evening there is a  
contest between G. M. Mayberry's  
rink (which will be skipped by R. L.  
Rush-ton) and A. E. Gayfer's rink.  
The members of the former rink are  
Messrs. W. O. Ritchie, E. D. H. Wil-  
kins, J. Caruthers and R. L. Rush-  
ton.

It is expected that a couple of  
rinks will visit Edmonton in a few  
days to play a game with the club  
there. A match with Lacombe is  
also expected in the near future.

### BASEBALL

An effort is being made to organ-  
ize a baseball league among the clubs  
on the C. & E. line, including Calgary  
and Edmonton. It is proposed to  
have a senior and junior league. This  
is a move in the right direction and  
should receive the hearty support of  
the baseball enthusiasts.

### HOCKEY

The following is the standing of  
the various clubs in the league at the  
present time:  
Wetaskiwin played at Leduc on  
Saturday, Jan. 31, and lost to Leduc  
by a score of 5 to 3.

Leduc played at Wetaskiwin on  
Tuesday, Feb. 3rd, and lost to Wetaskiwin  
by a score of 11 to 0.

Wetaskiwin played at Leduc on  
Saturday, Feb. 7th, and won by a  
score of 4 to 0.

Leduc played at Lacombe on  
Saturday, Jan. 17, and lost to La-  
combe by a score of 14 to 3.

Lacombe played at Red Deer on  
Jan. 24, and lost to Red Deer by a  
score of 7 to 3.

Red Deer played at Lacombe on  
Jan. 31, and lost to Lacombe by a  
score of 15 to 6.

Duluth has won three games from  
Oids, and is the winner of the south  
schedule.

A hard fought contest took place on  
the Leduc on Friday last week  
when the Wetaskiwin team played  
the third game of the series with the  
north club. The day was very pleas-  
ant and a large crowd of spectators  
witnessed the game. At half time  
the score stood 10 in favor of Wetaskiwin.  
After hard playing the visiting boys managed to score 3 more  
goals, making the game stand 13 in  
favor of Wetaskiwin. By previous  
arrangement the Leduc should have  
played the return game on Wetaskiwin  
last on Tuesday evening last, but  
defeated. Wetaskiwin is thus the  
winner of the north schedule.

## C. P. E. Gets C. & E.

A cable announces that at a meet-  
ing of the bondholders of the C. & E.  
railway held in London, England, last  
Friday, it was decided to lease the  
railway to the C. P. R. for a period of  
99 years.

This information settles for many  
years the position and control of the  
road. It also decides with whom will  
lie in future its conduct and manage-  
ment. The C. P. R. will now have to  
stand the brunt of any blame for the  
service and any praise for its good ac-  
commodation to the public.

The price to be paid for the lease is  
\$229,000.00 yearly, or about 4 per cent  
on the bonded issue of about \$5,745,313.  
The bondholders had no alternative.

The bonds are merely secured by the  
railway line and there is no equipment  
or rolling stock. They were leased to  
the extent of \$19,000 per mile and the  
road as it now is could be built or re-  
placed for less than half this amount,  
so buyers were not plentiful. The C.  
P. R. had notified the C. & E. that the  
agreement to operate the road would  
be an end if the offer was not ac-  
cepted. If the bondholders or the  
company operated the road, engines,  
cars and equipment would have to be  
bought.

## Horrible Death

Laurel, Man, Feb. 11th.—The re-  
sidents enquire into the mysterious  
death of the three Monette children  
last finished. There was considerable  
excitement until the facts were learned  
and this has been followed by deep  
sorrow for the bereaved family. The  
facts of the case are as follows: The  
mother of the children went out to  
wash at a neighbors and left the little  
ones at home to shift for themselves.

It appears that Mrs. Monette was in  
the habit of using lye in preparing  
beans for the table and the little ones  
undertook to follow her example in  
getting food ready for dinner on the  
particular day in question. The trouble  
was that they did not limit the use  
of lye they placed upon the beans  
and when they partook of them death  
resulted shortly afterwards by  
paralysis of the throat. The death  
has caused a great deal of talk.  
Many are of the opinion that a grave  
investigation should have been made.

## News Items.

At a meeting of the Inter-Wes-  
tern Pacific Exhibition Company,  
held at Calgary some time ago, it  
was decided to hold the annual  
Summer Fair from the 30th June to  
the 3rd July. It has now been  
found that the above dates would  
clash with those recently selected  
for the Edmonton Exhibition.

Another meeting, therefore, took  
place on Saturday last, at which  
it was unanimously decided to  
change the dates of the Calgary  
Exhibition to the 7th, 8th, 9th and  
10th July, in order that there may  
be no clashing of dates with the  
northern show.

The story is now being told of a  
young Chinese boy who lost \$1,700 of  
his employer's money and took \$6,000  
more and skipped to Canada a few  
months ago, having returned to Chi-  
cago and squandered himself. He in-  
vested the money he had taken in  
three sections of Canadian North-  
West land, which he sold and cleared  
enough to pay his indebtedness.

While in the west, the defendant was  
pursued by Pinkerton men, but man-  
aged to elude them for several  
months and return to Chicago with-  
out being arrested. The man who re-  
covered his money was so pleased with  
the honesty of his clerk that he hand-  
ed the young fellow back the money  
to invest in more western lands, on  
which the profit will be shared.

Until recently Argentine cattle were  
not permitted to be landed alive in  
England, but now they may enter on  
the same footing as Canadian cattle.  
It is difficult to say what effect this  
may have on the price of Canadian  
cattle. Some exporters in Montreal  
think it will have a serious effect.  
Of course Argentine chilled or frozen  
beef has been going into England for  
some time but whether if Argentine  
cattle are allowed to live the effect  
will be to increase the supply of beef  
is the question.

## Hillside

"A cheil's amang you taking notes, And faith, he'll prent it."

Pars for the unco guid. The imported hens are doing well.

The sombre sleigh and its lone occupant arrived quite safely, although the journey was a protracted one.

One of our settlers having missed the trail on his way home one evening recently, and owes his deliverance to his being a tobacco chewer. He retraced his steps and with the aid of matches, discovered not only footsteps, but other evidences.

Hillside school house is promised to be opened on April 1st. The sooner the day the better the deed, but why patronize Bedlam day.

I am sorry to know that quite a number of Hillsideers are on the sick list, but I hope they will all soon be in usual good health.

Two of our settlers went to town on professional business, perhaps to have their molars attended to, but I think not.

In a country whose area is some 8,325,393 square miles, there resides the press censor who suppresses from the public what he considers unbeneficial to their intellects, and although Canada is a free country up to the present we have an individual in this district aspiring to a similar position yet one must admit on a much smaller scale.

One of our jolly trustees, whom I met last week in town and whom I trust I may often see, has subscribed to The Times.

Various people, like dogs at a corner, take umbrage at nothing. But as some of the hides of the lower animals are shedding at this time of the year, probably some human pelts get a bit thin in sympathy.

The offer to one of our settlers to make some window frames, etc., I am glad to say, was received in the manner it deserved, viz., he declined the fag end job, which he considered offered merely for a solace.

## Highland Cattle

The above is the title of the painting reproduction presented by the Free Press, Winnipeg, to the readers of its weekly for the month of February. The rough, shaggy coated cattle of the Scottish Highlands, so different from the animals of the Canadian Northwest, are admirably depicted in this excellent copy of Watson's celebrated painting. The animals are grouped in the foreground and have the form of an irregular pyramid with the leader of the herd, a picturesque figure, at the apex, and this is agreeably balanced by the masses of mountains to the right and left of the picture. Clouds floating through the misty atmosphere give a pleasing variety of color and value by the shadows which they cast upon the landscape.

The pictures of W. Watson are seldom seen in the exhibitions for the reason that his success in the

painting of animals has been so great that for many years his work has been purchased before it left his easel. He rarely paints more than three or four pictures a year and all are executed with the completeness and painstaking attention to detail shown in "Highland Cattle."

## Fair Dates are Settled.

A convention was held here on Thursday evening to arrange dates for Alberta exhibitions. The delegates present were C. M. Peterson, Calgary; F. F. Tims, Edmonton; Mr. Milne, Lacombe; Mr. Malcolm Innisfail; Mr. Trimble, Red Deer, Mr. Rand, Olds; Mr. McIntyre, Strathcona; and Mr. Rosenroll, Wetaskiwin.

The dates arranged were as follows:

Edmonton—June 30 to July 2. Wetaskiwin—July 3 and 4. Calgary—July 7 to 10. Strathcona—Aug. 13 and 14. Ft. Sask.—Aug. 13 and 14. Lacombe—Aug. 20. Olds—Oct. 6. Innisfail—Oct. 7. Red Deer—Oct. 8 and 9.

A resolution was passed asking the judges to give short addresses on typical animals of the various classes judged.

A vote of thanks was tendered the Northwest Government for securing outside judges and to Mr. Peterson for his services.—Edmonton Post.

## March Canadian Magazine.

There is a wealth of good reading matter in the March Canadian Magazine. The Hon. Clifford Sifton writes of "The Needs of the Northwest," pointing out that the period of experiment has passed, and that the settler who now goes to the west, goes with a certain and absolute prospect. The needs of the west are population, transportation, a liberal land policy as regards settlers, and provincial autonomy for the Territories. Prof. J. E. Le Rossignol deals with "Railway Subsidies in Canada and the United States," and shows how much more extravagant Canada has been than her neighbor. Frank Yeigh describes the "Strange Stone Monuments of Brittany and Cornwall" in an article which is profusely illustrated. J. M. Jackson writes of "Ice-boating on Toronto Bay," and Katherine Hale tells some interesting things about Albany, the Canadian prima donna. "There are three excellent short stories by Philip Canby, Hubert Mackenzie, and J. M. Jackson. The last is a story of a man who has been better than ever."

## DISTRICT NEWS

Gathered by our own staff of wide-awake correspondents.

### Millot

The C.P.R. talk of building a depot and putting an agent at Millot in the near future. Hope they don't fool us.

Mrs. Wm. Connelly has been sick the past week, but is reported some land changed hands.

There have been several land seekers in our vicinity the past ten days and as a consequence some land changed hands.

There is considerable talk of opening up the unurveyed township east of Coal Lake early in the spring.

The debate at last week's meeting of the Millot Literary Society was rather one sided. The much abused "Good Natured Woman" will have to smile and take it all.

Our public school and literary society are much in need of an organ. Why not take up a collection and buy one?

There is talk of changing the road coming from the north to the west side of the track. This will bring the travel through the village.

The boys are organizing a football team and expect to challenge the world in the near future.

Mrs. Johnson, of the Millot Hotel, has gone to New York City for medical treatment.

Mr. Vannier, who has been laid up for several days, is attending to business again.

The Wetaskiwin hockey boys were so noisy on their trip to Le Duc that they frightened a passing team, causing one of the horses to strike its mate on the leg, breaking it. The horse was shot the next morning.

### Battle River

Will Schantz is spending a fortnight with his brother "Kiss."

Through an oversight in our last budget we omitted to give the name of C. Schantz as succeeding Mr. Wilson in the triple office of Secretary, Treasurer and Assessor for the ensuing current year, while Mr. Fenner was re-elected chairman. Mr. Wilson had performed his duties for several years with entire satisfaction to the board and district, but resigned, being now in the new district of Angus Ridge.

Dog poisoning is not confined to Wetaskiwin alone, as many of our neighborhood are deeply interested in the loss of some fine watchdogs. Not so the one who recently disposed of seventeen coyote hides at a goodly figure.

Revel of (the many art) meetings are being held in the district.

Jim, St. Will and Geo. Schantz with lady friends, made a merry sleigh load as they took in their brother Ben's birthday party on Monday week. "For they are jolly good fellows."

### Pleasant Prairie

The sleighing on the main road is getting very poor and cord-wood hauling will be at a stand still until more snow comes.

Saw-mills are plentiful now in this neighborhood. One mill is running on the northwest corner of 3-40-25, near the Piqueen Lake road and another moving out 32-49-25. Farmers, bring in your logs and have them turned into lumber while the snow lasts.

Miss Annie Burns, our teacher, spent Saturday and Sunday at Bear's Hill, at the home of Mr. and Mrs. A. Goodland.

J. W. Cluton, Wm. Sutherland and Geo. L. Simpson spent a few days last week in the West Lake country and they report everything prosperous and land nearly all taken.

### Highland Park.

E. Stromberg went to Calgary last week to visit with C. J. Boyan.

C. F. Hanson and E. W. Nordgren took a trip to the metropolis last week.

Highland Park is a leading post office situated 44.21, and somebody should come out and start a store.

The Kensington school district needs a good teacher and we would like to have one soon as school should commence right away.

How does this winter weather suit you newcomers?

E. A. Hanson, our genial school treasurer, has his house almost finished and he says he will be looking around for a life partner without any further delay.

### Dried Meat Creek

We have fine weather again.

Harry Dietrich has rented his blacksmith shop to a Mr. Douglas, across the lake.

Mr. Moller took a load of pork to Duhamel this week.

Mr. Calder is managing Geo. Sutherland's ranch while the latter is on a business trip to Battle River.

Mr. Mayer, who contracted for the school house here, is pushing the building right up.

Alvott Hazen and Miss Core were married some time ago.

Miss Emma Schneider is the guest of Mr. and Mrs. David, at Battle River.

Mr. Rhu and his brother-in-law are back from the lumber woods.

Geo. Bowie and Mr. O'Neil got as far as Valentine's store on their return from Wetaskiwin. Mr. Bowie unlatched his team and fed them oats, but failed to tie them whereupon they started for home leaving the harness along the trail. Bowie took the foot express.

Alfred Potts has the timber for a new house; that looks a little suspicious. Who is it Alf?

Mr. Kadlec is applying for a license to sell intoxicating liquors at Heather Brae. His partner will erect a lively stable.

Mr. Schneider has sold quite a few horses this winter.

Barley is scarce and it is held at a high figure.

### Bittern Lake

T. Fowler arrived last Tuesday from Strathcona, where he has been in the blacksmith business. He intends opening up a shop in the near future.

A. Carruthers visited his ranch last week and reports everything in good condition.

We are pleased to see P. O. Sanders in our midst again. He is able to get around on crutches now.

Master Frank Fowler, of Strathcona, is visiting his grandmother. Mrs. Hoover, at present.

J. Sanders has the contract of supplying the Rosehill school with wood.

### Spruce Springs

The fine weather during the past few days has given the farmers a chance to replenish their wood piles.

Mr. and Mrs. H. J. Schoolcraft have returned from a week's vacation.

Miss Maud Campb' spent Sunday with her aunt and cousin, at Wetaskiwin.

Mr. Lee is down from Crooked Lake finishing his house and building a granary.

Messrs. Cole and Jeffords are drawing wood from Little Beaver Lake this week.

A freak in the form of a man was looking for a section of land to plant apple trees, etc., on. A poor time to find a location of that kind.

Geo. Campbell passed this way on Thursday for a load of oats and flour at Duhamel, returning Friday with 150 bushels of oats and 200 lbs. of flour, drawn by his pony team.

Several young people from here took in the dance at Mr. Miller's one night last week.

A large number of young people were in attendance at the choir practice Sunday evening at the residence of Mr. Cole.

Wm. Campbell made a business trip to Wetaskiwin the last of the week.

### Lewisville

The Hesperian Literary Society has commenced again, and is creating as much interest as ever. It meets every Friday evening at 7.30 in the Roschriar school house and visitors are cordially invited.

Goddard Johnson and E. Hakes were at Wetaskiwin on Wednesday getting their homestead papers.

Our new teacher, Mr. Stromack, is doing good work at the school. We wish him continued success.

## Swine, Poultry and Dairy Associations

A public meeting is to be held in Puffer's Hall, Lacombe, on Wednesday, the 4th of March next, at 2 p. m., to consider the advisability of forming Territorial Swine, Poultry and Dairy Associations, to which every person interested is cordially invited. P. Talbot, Vice-President of the Purebred Cattle Breeders' Association will preside.

The pork, poultry and swine industries are gradually coming to the front in the Territories and particularly in Northern Alberta, and it is felt that the time has come for organization on the same basis as the Live Stock Associations. Lacombe, being centrally located in the district most interested in these branches of agriculture, has been selected for the first meeting.
